

## **INFORMATION AND COMMUNICATION TECHNOLOGY (ICT)**

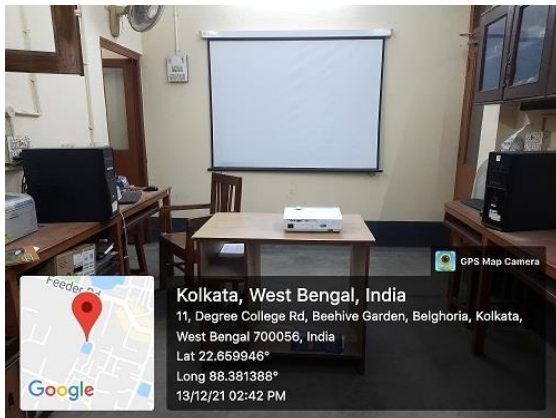

The teachers of Bhairab Ganguly College acknowledge the importance of using innovative ideas in teaching so that students' learning experience can be more inclusive. Information and Communications Technology (ICT) is an effective tool for obtaining and spreading information from multiple sources to help students to boost their knowledge. Nowadays, using ICT is essential in the teaching-learning process, since many systems are used to disseminate knowledge, store, and distribute information between students and teachers. Knowledge from ICT based tools not only help to develop digital literacy, but also encourage high quality thinking skills among students.

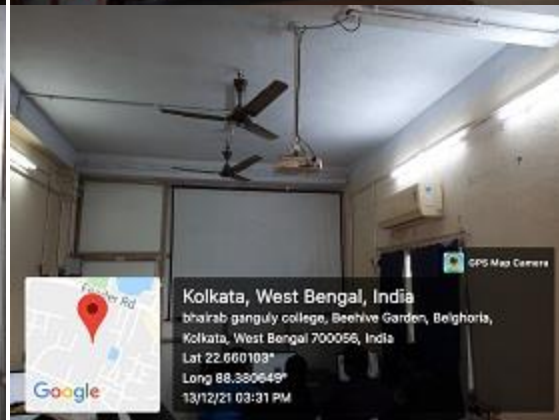

Since past few years, use of ICT tools has seen a steady increase in our college to a considerable extent. Wherever found reasonable, teachers use laptops and LCD projectors in classrooms to make it easier to students for understanding a subject from different perspectives. Bhairab Ganguly College has classrooms with projectors, smart board, microphone etc. which help learning process. Well equipped computer laboratories of this college also assist in ICT based teaching. College library also provides students computers with internet facility and access to e-journals and e-books. Study materials and videos from open educational platforms e.g SWAYAM, SWAYAMPURABHA, E-PG PATHSALA, SHODHGANGA etc and different documentaries from online archives are regularly shared with students.

During recent Covid-19 Pandemic time, ICT has proved to be the ideal platform of teaching and learning. During this difficult time, it helped in maintaining good student-teacher relationship thereby mitigating the hardship faced due to COVID 19 related restrictions. Teachers have started taking online classes on platforms like Google Meet, Whatsapp, and Skype etc. Teachers also attended special training programmes and workshops on the use of ICT tools for making themselves well equipped in Learning Management System (LMS). Now College has its own custom built LMS. During the course of online teaching, teachers of Bhairab Ganguly College also have shared e-books through email, WhatsApp, Google Classroom and LMS which were very useful to the students as going to libraries was impossible for them during the lockdown period.

# Physical facilities for ICT

## 1. Classrooms with LCD Projectors

## 2. Smart Classroom

### 3. Computer Laboratories
