## Perennial Assistance Unnat Bharat Abhiyan 2.0 Rs. 1.75 lacs

**Name of the Activity: Distribution of Knitting machines (6) & Dice machine (2) for making Sal leaf plate**

**Distribution of Solar lanterns (30)**

**Name of the Village: Ledapakur**

The villages are located at *Ranibandh Block* of *Bankura* District of the state of West Bengal.

**Date of implementation: 10.09.19**

**About the activity:** A team of 5 member of college had conducted a distribution programme at one of the adopted village; Ledapkaur in the Ranibandh subdivision of Bankura District of West Bengal. The faculty members and students of the Institution conducted an elaborate awareness campaign on renewable energy in local primary schools where a large number of people had gathered and were successfully impacted by verbal lectures. We have distributed 6 Sewing/Knitting machines 2 dice machines for makinf sal leaf plates.

The college aims to facilitate the overall development of the adopted villages by combining knowledge and training. The solutions designed will cater to the immediate and long-term needs of the villages by making the villagers self-reliant through knowledge and practice.

We have also distributed 30 solar lanterns among the villagers of ledapakur. These lanterns were distributed using the funding provided by UBA 2.0 Perennial Assistance programme. The objective behind this action was to illuminate the homes, which are deprived of a basic amenity, that of an electricity connection, in order to facilitate an environment conducive to the study hours necessary for school-going children in the village. The team also focused on the contribution technology can make through the spread of education, pursuing which is an activity which is hindered by the lack of basic amenities and facilities.

The action was very warmly received by the households, especially school children who became the direct beneficiaries of this action. The photographs bear testimony to the success of the event. The college looks forward to receiving such funding support from the UBA 2.0 for proper implementation of this plan in the other villages under the adopted village cluster as well.
