Report:

The Department of Political Science did its first Alumni Lecture on 27th of April, Wednesday, 2022. In offline mode, this event has been started at 12:00 noon on that day. Our notable alumni Smt. Manisha Ghosh, presently she is serving as a SACT, Department of Political Science, Prasanta Chandra Mahalanobis Mahavidyalaya, was the speaker of that event. Her topic was "NARIR KHOMOTAYONE PASCHIM BANGA SARKARER BHUMIKA"(The Role of West Bengal Government in Women's Empowerment). In this programme more than forty-six (46) students attended.

This delightful event was inaugurated by our respected Principal Sir, Professor (Dr.) Subhranil Som by his welcome address. After that, Smt. Manidipa Banerjee, Co-ordinator of the event, explains the relevance of this programme. Following her Smt. Subhasree Bhattacharyya, the moderator of the programme, welcome all participants on behalf of the department. After that, she introduced us to our notable speaker Smt. Manisha Ghosh with the participants.

After this formality, Smt. Manisha Ghosh started her lecture on the thought-provoking topic. More than fifty minutes she mesmerized the participants with her lecture. After that, the Question- Answer session began. This session was conducted by Smt. Subhasree Bhattacharyya of the department. A number of hands rises for question in this database issueand Smt. Manisha Ghosh excellently answered all the questions.

At the end of the session Smt. Manidipa Banerjee read the "Letter of Appreciation" towards Smt. Manisha Ghosh on behalf of the college. This remarkable programme ended with a formal vote of thanks by Dr. Probir Karar, Associate Professor and a senior most faculty member, the Department of Economics.

The programme has been succeeded by the active initiative and proficient guidance of our respected Principal Sir Professor (Dr.) Subhranil Som and Smt. Manidipa Banerjee, Co- ordinator of the programme. The entire programme moderated by Smt. Subhasree Bhattacharyya, SACT, Department of Political Science, supervised by Dr. Aftabuddin Ahammad, Assistant Professor and In-Charge, Department of Political Science, and supportedby all the faculty members and the students of the department.

Alumni Lecture 4

Department of Physiology

Alumni Speaker: **Biplab Singha**, **SRF, National Institute of Immunology, New Delhi**

Title: The unique N-terminal region plays a dominant role in Mycobacteriumtuberculosis Sigma Factor A (σ^A) essentiality

Date: 06.05.2022
Time: 7pm to 8 pm

Brief CV of speaker:

Biplab Singha did his B.Sc. (Hons) in Physiology from Bhairab Ganguly College. He obtained first class second in Physiology from West Bengal State University in the year 2014. He appeared in the Central University Common Entrance Test conducted by JNU in 2014 and qualified the said exam, then Biplab Singha completed M.Sc. in Molecular biology and Biotechnology in 2016 from Tezpur Central University, Assam. He had qualified Graduate Aptitude test in Engineering (GATE) in 2016. He received research fellowship from UGC and Department of Biotechnology, Govt of India in 2016. He also qualified Joint Graduate Entrance Examination for Biology and Interdisciplinary Science conducted by NCBS-TIFR in 2016. After that his research career started with Ph. D. in National Institute of Immunology in the year 2016 under the Supervision of renowned Immunologist Dr. Vinay. K. Nandicoori, (currently Dr. Nandicoori, Director of CCMB, -Centre for Cellular and Molecular Biology, Hydrabad). He has published three research articles in reputed international journal like EMBO, BIOCHEM and mBio. He has communicated one research article in PNAS. Mr Singha has received best poster award on science Day, 2022 organized by NII. He attended many International and national Symposium, conference and seminar. He also organized multiple seminar and symposium such as NCR cluster meeting funded by DBT Govt. of India.

Abstract of seminar

SigA (σ^A) is an essential protein and the primary sigma factor in Mycobacterium tuberculosis (Mtb). However, due to the absence of genetic tools, our understanding of the role and regulation of σ^A activity and its molecular attributes that help modulate this pathogen's survival is scant. We generated a conditional gene replacement of σ^A in Mtb and showed that its depletion results in a severe survival defect in vitro, ex vivo, and in vivo in a murine infection model. RNA seq analysis suggests that σ^A either directly or indirectly regulates ~57% of the Mtb transcriptome, including ~28% of essential genes. Surprisingly, we note that despite having 64% similarity with σ^A, overexpression of the primary-like σ factor σ^B fails to compensate for the absence of σ^A, suggesting minimal functional redundancy. RNA seq analysis of the Mtb σ^B deletion mutant revealed that 438 genes are regulated by σ^B, of which 283 overlap with the σA transcriptome. Biochemical analysis including Surface Plasmon Resonance, in vitro transcription, and functional complementation experiments, reveal that residues between 132-179 in σ^A that are disordered and missing from all experimentally determined σ^A -RNAP structural models, are imperative for σ^A function. Moreover, phosphorylation of σ^A in the intrinsically disordered N-terminal region plays a regulatory role in modulating its activity. The observations and analysis provide a rationale for the centrality of σ^A for the survival and pathogenicity of this bacillus.

Report

Department's First Alumni Lecture was organized on 07/05/20222, Saturday, 11:00 am onwards at APJ Abdul Kalam Seminar hall. Prof. (Dr.) Subhranil Som, Principal was the chief Patron for the current event. Prof. Manidipa Banerjee was the event coordinator and Dr. Anulipi Aich had acted as the moderator of the session. All the departmental faculty members and non-teaching staff members were present. The lecture was given by Dr. Sampurna Roy Chowdhury, who is an alumnus of this department of 2006 pass out batch. Currently she is Area Medical Advisor for I&I at Pfizer. After completing her PhD in clinical immunology she has around 6 years industrial experience in biotech and Healthcare field. She had been Department Head for the entire East operation at Thyrocare and Regional Medical Officer East at Abbott.

She had given a presentation entitled "***My journey… Can be yours Too***.." where she focused mainly on the different avenues that students can choose after completing graduation with Zoology as their main subject mainly in the of industrial sector. She discussed with the students on how to take preparation, how to make CV, how to approach for industrial jobs. It had been an excellent session where students were inspired and interested with her words. There was a long interaction session with the students and she shared all the information and her contact details with the students for further communication.

Report

Department of Philosophy had organised Alumni Lecture on 22nd June 2022, Wednesday, at APJ Seminar Hall (R 129). Prof (Dr) Subhranil Som, our principal was the chief patron of this event. Prof Manidipa Banerjee was the event coordinator. She felicitated our speaker and said some valuable words about Alumni lecture series. Prof Sonali Sarkar of Philosophy Department acted as a moderator of this event. She introduced our speaker to the audience. All the faculty members of our department and from other departments were present. Almost 40 students of Philosophy Department attended this alumni lecture.

The Lecture was delivered by Smt Subarna Dey who is alumnus of Philosophy department. She graduated from our department in 2018. After that she pursued her Masters in Psychology from IGNOU. She also completed her Diploma course in Psychological Counselling from Centre for Counselling Services and Studies in Self Development from Jadavpur University. Subarna delivered a lecture entitled "Tips on how to relieve stress in daily life" and also about psychological counselling and play therapy. It was an excellent session and very informative. Our students also enjoyed the session. Prof Anindita Datta conducted an interactive session where the students asked their queries.
