COURSE OVERVIEW

This advanced course is aimed at learners who have a good grounding in Excel either from experience or from attending our Intermediate Microsoft Excel training course. If your job involves manipulating and analyzing data in Excel, you will find this course very useful.

This advanced course focuses on the vast array of functionality of Microsoft Excel and will allow learners to enhance their skills. The course also goes into detail on how to normalize data and analyse it with PivotTables.

LEARNING OUTCOMES

By the end of the course each learner will be able to:

- Import data into Excel, prepare it and set up pivot tables to analyse it
- Record macros and create icons on the toolbars to run them
- Understand how to locate errors in formulas and evaluate them
- Use analysis tools to forecast figures based on a range of scenarios
- Ensure important data is highlighted by summarizing large workbooks and sorting data in to key elements

Below you will find a proposed course outline detailing all the topics covered on the training programme.

TOPIC1: WORKING WITH MULTIPLE SHEETS

- Opening a second workbook
- Worksheet Linking; Update Links
- Linking Calculations and Using Paste Special
